INTRODUCTION

This document describes how to get the Mosaic system up and running quickly. Both the editor and the mosaic player are installed on the same system, and interconnect via local host (127.0.0.1).

A simple configuration with 1 screen is created in trial mode. This manual describes the installation for version 2.2 and higher.

INSTALLATION & CONFIGURATION

RECOMMENDED OPERATION SYSTEM

The software is running in all windows versions:

NOTE: In Server OS (Win2012, Win2016,...) you might need to set the feature 'User Desktop Experience' enabled in the Server Manager.

Recommended Operating System is Win10 or Win7 prof 64 bit.

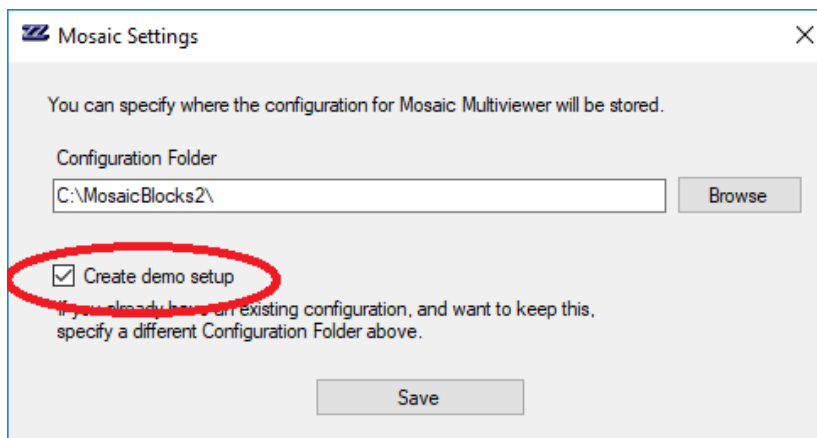

SOFTWARE INSTALLATION

1. Install the Multiviewer Blocks msi: SetupMultiviewerx.y.z.msi (or setup.exe)
2. Install the Multiviewer Blocks Editor msi: SetupMultiviewerEditorx.y.z.msi (or setup.exe)

Recommended to keep the default installation folders.

CREATE DEMO SETUP

During installation, you are asked to create a demo setup.

If this feature is checked, the demo setup will automatically be created, meaning.

- 1 screen is created, containing 4 display with total size of 960x540.

- Editor xml file is created demo_screens.xml
- Shortcuts on desktop:
 - Start mosaic : starts the mosaic player
 - Mosaic editor demo: Opens the editor with the demo_screens.xml as parameter
 - Start stream: Starts the sample stream

START DEMO

After installation, the demo is automatically started, meaning:

- Start mosaic
- Start streamer

You can configure the demo setup, by starting “Mosaic editor demo”, and play around with the settings.

Enjoy!

(LICENSED) KEY INSTALLATION

By default, the MOSAIC software will run in demo mode, showing “trial mode” and message boxes. In order to receive a full, but temporary, licensed version, you can query a demo software license.

Please follow the next steps in order to run the MOSAIC in full feature mode, not showing the demo message boxes.

1. Run Programs menu – Dualz Software – Dualz Software BV – Dualz multiviewer blocks.
2. Click “Set License”:

The form below appears, if you already received a license go further with item 6.

A screenshot of a dialog box titled "License input". It contains the text "If you received a license key, please fill in here:" followed by a text input field. Below the input field is a "Save" button. At the bottom of the dialog, there is the text "Don't you have a license key yet, please query one" and a "Query new license" button.

3. Select “Query new license”.

4. Copy the given string to the clipboard and send it to info@dualz.nl.
5. After reception of the license key, select "Set license" again.
6. Enter the given license key
7. Run Programs menu – Dualz Software – Dualz Software BV – Dualz Multiviewer Blocks. Check if the software is licensed now.
